Results-driven Software Engineer with 2.2 years in product-based companies, specializing in frontend development. Focused on building high-performance applications that improve user experience.

Technical Skills

JavaScript | TypeScript | React.js | Next.js | React Router | Redux | DOM | REST API | HTML5 | CSS3 | Bootstrap | Tailwind CSS | MUI | WCAG standards | Git | CI/CD Pipeline | Figma

Experience/Projects

Software Developer, Programming.com

Oct 2024 - May 2025, Bengaluru, India

VisionIntelligence_BlackHat: *Merchant Ticket Tracking System*

- Developed a high-performance system using React.js, TypeScript, React Router, Axios, and JWT for secure role-based access with multilingual support (i18n).
- Enabled merchants to track and manage consumer-raised tickets, monitor services, and handle transactions via a centralized dashboard, improving issue resolution speed by 40%
- **Tech Stack:** React.js, TypeScript, React Router, Axios, JWT, MUI, Tailwind CSS, i18n.

AQSAT: *Rent Now, Pay Later - A Flexible Rent Financing Platform*

- Developed a rent financing platform reducing upfront costs by 70%, integrating React.js, Redux, JWT, REST APIs, and Tailwind CSS for a responsive UI.
- Implemented KYC, real-time credit scoring, and an analytics dashboard, enhancing approval efficiency and financial accessibility.
- **Tech Stack:** React.js, Redux, TypeScript, JWT, REST API, Tailwind CSS, MUI, i18n

Software Engineer, Impelsys

Oct 2022 - June 2024, Bengaluru, India

AI Resume Builder: *Effortless Resume Creation*

- Developed an AI-driven resume builder using OpenAI's LLM for content generation and implemented real-time validation with Yup and Formik.
- Implemented real-time validation with Yup and Formik, modular component design with hooks and Context API, reducing resume creation time by 50% and ensuring ATS compliance.
- **Tech Stack:** React.js, JavaScript, OpenAI GPT (LLM), Yup, Formik, Tailwind CSS.

Hit: *E-Learning Website*

- Developed a WCAG-compliant e-learning platform serving 5,000+ healthcare IT professionals using React.js, Bootstrap, and ARIA landmarks for accessibility.
- **Features:** Improved user engagement by 35% through optimized UI and cross-browser compatibility.
- **Tech Stack:** React.js, JavaScript, Bootstrap, ARIA, MUI.

Education

Master of Computer Applications RV College of Engineering *June 2020 - July 2022, Bengaluru, India*
