PROFESSIONAL OVERVIEW

Results driven Software Engineer with 2.5 years of experience in product based companies, specializing in frontend development. Focused on building high performance applications that improve user experience and scalability.

WORK EXPERIENCE

Software Developer, Programming.com, Nov 2024 - Present

VisionIntelligence: *Merchant Ticketing Management System*

- Developed a high-performance ticketing system using React.js, JavaScript, React Router, Axios, and JWT authentication for secure role-based access, with i18n integration for multilingual support.
- Enabled merchants to manage bookings, track services, and process transactions in a centralized dashboard, improving service resolution speed by 40%.

AQSAT: *Rent Now, Pay Later Platform*

- Developed a rent financing platform reducing upfront costs by up to 70%, integrating React.js, Redux, Typescript, JWT authentication, REST APIs, and Tailwind CSS for an optimized UI.
- Implemented KYC validation, real-time credit scoring, and a responsive analytics dashboard, enhancing approval efficiency and financial accessibility.

Software Engineer, Impelsys, Oct 2022 – June 2024

AI Resume Builder: *AI Powered Resume Creation*

- Developed an AI-driven resume builder using OpenAI's LLM for content generation and React.memo for optimized performance.
- Implemented real-time validation with Yup and Formik, and designed a modular component-based architecture using reusable hooks and context API, reducing resume creation time by 50% and ensuring ATS compliance.

HIT: *E-Learning Platform for AHA*

- Developed an accessibility-compliant e-learning platform for 5,000+ healthcare IT professionals, ensuring WCAG compliance with React.js, JavaScript, Bootstrap, and ARIA landmarks.
- Optimized UI with MUI & Bootstrap and ensured cross-browser compatibility, improving user engagement by 35% through better accessibility.

EDUCATION

Bachelor of Computer Applications

Integrated Institute of Technology
2019

CGPA: 7

Master of Computer Applications

RV College of Engineering
2022

CGPA: 7.1

SKILLS

- React.js
- JavaScript (ES6)
- TypeScript
- React Router
- Redux
- Context API
- Node.js
- HTML5, CSS3
- CI/CD Pipeline
- Bootstrap
- Tailwind CSS
- MUI
- AJAX
- Git and GitHub
- REST API
- DOM
- Jest and Enzyme

ACHIEVEMENTS

Spot On Award

Impelsys, 2023

Agile Learner Award

Programming.com, 2025
